in the bedroom. It's flushing with red light.

It's 1:30 pm.
You're having
a nap before
your afternoon
classes. You're
charging your phone

③

I got my computer,
wallet, keys....
Nice, the light turns
green. My phone is
ready.

②

Let me grab
my stuff
quickly.

oh. It's 2:00!
I need to go to
class.

④

At the end, you're able
to grab your phone quickly. You don't even
need to check
the battery level.
You ~~re~~ know your phone
battery is full because of
the green light from the
charger. Thus, you ~~u~~ don't
need to worry about your phone battery
in the afternoon.
